## Professional Summary

Finance and data professional supporting executive leadership in budgeting, revenue management, and operational decision-making. Experience managing revenue processes supporting ~\$2B annually and leading firm-level budget development for client acquisition and staffing strategy. Strong background in financial modeling, ERP optimization, and automation that improves efficiency and data integrity.

## Professional Experience

### Baughman Kroup Bosse, PLLC

*Financial Analyst*

New York City, NY

07/2024 - Present

- Lead development and management of firm-level budgets supporting executive decision-making in financial planning, client acquisition evaluation, and staffing optimization.
- Own monthly potential business write-off analysis, presenting financial findings and recommendations directly to executive leadership.
- Architect and deploy NetSuite dashboards delivering real-time financial performance visibility across revenue and expense metrics.
- Oversee daily reconciliation and posting of credit card transactions, ensuring data integrity across systems.
- Design and implement ERP process improvements and system integrations to streamline workflows and improve reporting efficiency.

### Allegiant Airlines

*Staff Accountant – Revenue*

Las Vegas, NV

05/2023 – 05/2024

- Managed daily revenue journal entries supporting approximately \$2B in annual revenue within a publicly traded, high-volume environment.
- Conducted structured inflight revenue audits to ensure transactional accuracy and compliance.
- Reconciled air traffic liability accounts, strengthening deferred revenue visibility and reporting accuracy.
- Designed and implemented automated revenue reporting workflows, reducing manual processing time by approximately 25%.
- Partnered cross-functionally with finance, operations, and external stakeholders to ensure accurate billing and commission payments.
- Participated in cross-functional ERP migration testing and validation efforts during transition from internal systems to SAP, supporting system readiness and data integrity verification.

### MGM Resorts

*Internal Audit – Data Analyst Intern*

Las Vegas, NV

01/2022 – 05/2023

- Developed self-service reporting tools supporting internal audit analytics and risk assessment functions.
- Automated audit documentation workflows to improve efficiency and standardization.
- Extracted, validated, and visualized financial and operational datasets.
